You are receiving this list because one or more of your students (listed below) and their families recently participated in the Families & Schools Together, Inc.[®] Program - FAST .

As you may already know, FAST was implemented by a team of parents, school staff, and community members at your school over the past eight weeks. FAST is an internationally acclaimed family engagement program that helps children thrive by building strong relationships at home and between home and school. You can learn more about FAST at <https://www.fastaustralia.com.au/>.

One of the goals of FAST is to support children’s social emotional well-being and success at school. Your perspective as a teacher is very important to us as we evaluate our progress on this goal. During the eight weeks of the program, we hope you will take the time to consider the impact of the FAST program on your student(s).

At the end of the program, we’ll ask for your feedback by sending you a link to an online survey. You will be asked a few questions about general experience and opinions about FAST. Then for each of your FAST students, you will be asked to identify the student using the Family ID number (below) and then rank his or her positive development in classroom behavior, social interactions, and academic work. One additional question asks about family engagement at school.

Responses that you provide will be compiled with responses from other teachers at your school into a report for the FAST Team to improve their practice and share the impact of FAST with stakeholders. Teacher name and Family ID # are used to manage survey administration only; individual responses are reported in aggregate and not associated with a specific student or teacher.
